UNITED STATES INTELLIGENCE BOARD
COMMITTEE ON DOCUMENTATION
TASK TEAM V - BIOGRAPHICS
WORKING GROUP ON NAME SEARCHING ACTIVITIES

Minutes of the Fourth Meeting, 12 August 1965

Members or Their Representatives Present

25X1A
ARMY - Mr. Paul Anderson, Chairman
CIA - Mr. [REDACTED]
CSC - Mr. Pearley Buck
FBI - Mr. Earl McCoy
I&NS - Mr. John L. Keefe
CSS - Mr. Robert M. Landau, Secretary

1. The meeting was opened by the Chairman reviewing briefly, for the members present, the status of the DoD program for centralization of the Army, Navy and Air Force investigation index cards and the DoD national agency check program.

2. The members of the group each explained the figures that had been developed as a result of the survey on time of response. After the explanations and discussion, it was determined that several of the figures required for consolidation to produce overall figures were not yet available. The various members agreed to provide these missing figures to the Secretary in the next day or two. It was agreed that the Secretary would take the individual agency figures and consolidate these to produce a set of average figures for requests sent and received by each agency. It was further determined then that this information would be provided the Chairman of Task Team V as the working group's response to the task assigned to it.

3. The group also pondered what additional responsibilities it had and what recommendations might be made to the Chairman of Task Team V. It was agreed that no additional information needs to be collected, and that much useful planning could be done by such a

working group. As a result of the discussion, the group concluded that it should recommend the following: (a) such a working group be extended to accomplish the needed planning and coordination in the national agency check area in whatever form felt best by CODIB; (b) the group should explore in greater depth, the types of searches that are being made by each agency, the common data elements that could be agreed upon and the technical upgrading of the communication system between the various agencies.
